

Hi, I'm Deepanshu Tyagi, a curious and driven BTech CSE student. I love meeting new people and hearing their stories - it's amazing how much you can learn from others. I'm a strong communicator and listener, and I thrive in teams where everyone's working together towards a common goal.
I'm really passionate about Machine Learning, and I've also got experience with backend and frontend development, video editing, and hardware projects.

SKILLS

- Technical Skills :
- Programming Languages: Python, C++, C, JAVA , SQL
 - Frameworks & Libraries: Flutter, TensorFlow, PyTorch, NumPy, Pandas, Scikit-learn , Flask / FastAPI , OpenCV
 - Tools : PlatformIO, Jupyter Notebook, Google Colab, Git, Esp-01 , Premiere Pro
- Soft Skills :
- Project Management, Multitasking , Agile , Tutor, UI/UX Design, Video Editing, Good listener, Communication

EDUCATION

- B.tech CSE (2023-2027)**
Norden India Engineering College(niec), affiliated with GGSIPU
New Delhi
- Class 12th (CBSE): 93.5% (<https://bit.ly/42EiLiU>)
 - Class 10th (CBSE): 95% (<https://bit.ly/4loselS>)
 - JEE Mains: 93.2 percentile (Rank: <74,000) (<https://bit.ly/4jOunTs>)

CERTIFICATIONS

- [Advanced Learning Algorithms](#) – DeepLearning.Ai, Coursera, Completed: [Feb-2025]
- [Supervised Machine Learning](#) – DeepLearning.Ai, Coursera, Completed: [Oct-2024]
- [Instagram Engagement](#) – DeepLearning.Ai, Coursera, Completed: [Aug-2024]
- [Reinforcement Learning](#) – DeepLearning.Ai, Coursera, In Progress
- [Foundations of Project Management](#) - Google , Coursera , Completed: [May-2025]

PROJECTS

- Tweet Sentiment Analyzer** [<https://sentiment-api-v6wr.onrender.com>]
- Developed a web app using Python, NLP, and logistic regression to classify X posts as positive or negative. https://github.com/deepanshutyagi86/sentiment_api.git
- MeetAssit**
- Developed a universal AI assistant for video conferencing and integrated with tools like Trello . https://github.com/deepanshutyagi86/Meetassist_backend.git
<https://github.com/deepanshutyagi86/MeetAssitant.git>
- Conversion Rate Model** [<https://user-conversion-1.onrender.com>]
- Built a model to predict and optimize conversion rates by analyzing user behavior metrics like session duration and pages visited. https://github.com/deepanshutyagi86/user_conversion.git
- Image Compressor**
- Applied K-Means clustering in Python with NumPy to compress images, cutting colors to 16. https://github.com/deepanshutyagi86/compres_image.git
- College_Election_Platform**
- Built a React and Firestore web app for college elections with admin/student panels, OTP authentication, and secure data storage using JavaScript and DBMS. <https://github.com/deepanshutyagi86/clgElection.git>
- Cardiovascular Disease Prediction**
- Created ML models (Decision Trees, Random Forest, XGBoost) using scikit-learn and Python with one-hot encoding for data preprocessing. <https://github.com/deepanshutyagi86/Cardio-Disease-Predict.git>
- Smart Grocery**
- Developed a Flutter recipe prediction app that suggests dishes based on food ingredient expiration , Integrated Firebase for efficient data storage and retrieval, ensuring a fast and cross-platform user experience. https://github.com/deepanshutyagi86/smart_grocery-app.git

EXPERIENCES & ACHIEVEMENTS

- [1st Position](#) - Techkriti(2025) - ECDC(Gal Dodger) (Techfest - IIT Kanpur) [Mar-2025]
- [Runner up](#) - Entrepreneur’s Point , DROID 7.0 (Mody University) [Apr-2025]
- Organizer - HackArealn (Hackathon) Ignite Room IIIT delhi. [May-2025]
- Participant - [DSCI CTF Hackathon](#) (ThePullman, Aerocity). [Dec-2024]
- Participant - [Arma-Code](#) -2025 (IISER BHOPAL). [Mar-2025]
- Volunteer (Video Editor) - GDGC INNOVA(2024). [Nov-2024]
- Tutor - Physics and Maths . [2023-continue]
- Finalist- [INNERVE9](#)-2025 (Techfest - AIT PUNE). [Feb-2025]
- Participant - Techkriti-2025 (Techfest - IIT Kanpur) . [Mar-2025]
